

WINE FLIGHTS

32B-5-304(2)

A wine flight is a sampling or assortment of wines that may be served in smaller portions. That way, the connoisseur may find the wine they love the most, and may be inspired to buy a full bottle. In Utah, an individual portion of wine may be poured into more than one glass if the total amount of wine does not exceed 5 ounces. Some license types allow an individual to have two portions, which would double the amount of wine listed in the examples below.

EXAMPLES OF ONE PORTION:

1 ounce of wine served in 5 glasses = 5 ounces

2.5 ounces of wine in 2 glasses = 5 ounces

5 ounces of wine in 1 glass = 5 ounces

1.25 ounces in 4 glasses = 5 ounces

1.666 (chuckle) ounces in 3 glasses = 5 ounces

Patrons may have one wine flight "portion" and depending on the license type, may have a beer, heavy beer, or cocktail portion as well.

IMPORTANT THING TO REMEMBER:

Always be "serving wise" - just because you can do something does not necessarily mean that you should. It's **ILLEGAL** to get someone intoxicated.
